Topping Certification Exam Prep, Test Dumps Materials - ActualTestsIT

**Exam** : **1z0-976**

**Title** : Oracle CPQ Cloud Service  
2017 Implementation  
Essentials

**Vendor** : Oracle

**Version** : DEMO

**NO.1** Which statement is true about creating individual user groups for each partner organization, when creating partner organizations?

- A.** A host company FullAccess user create groups for partner organizations; however, the superuser of a partner organization can only assign users to existing groups.
- B.** The groups of partner organizations are created by using the Bulk Upload utility or SOAP API calls.
- C.** The groups of a partner organization are maintained by FullAccess users belonging to the partner organization.
- D.** Partner organizations have only users, but no user groups.
- E.** Partner organizations use the same user groups defined for the host company.

**Answer:** A

**NO.2** Your users receive a notification for a transaction from CPQ when an approval has been retracted and is no longer needed. The notification contains a generic message about this action. However, users would like to get more details about the transaction.

What is the Oracle-recommended best practice to fulfill this requirement in CPQ?

- A.** Switch the system-generated email-to-email template, which will include the desired transaction information when approvers are notified.
- B.** When a transaction needs to be revised, allow the transaction owner to send a parallel email to approvers, which should include the necessary transaction details.
- C.** Trigger an email action to notify users by custom defining the email's subject and body, which contain the transaction details, by using the advanced function available in the Revise action.

**Answer:** C

**NO.3** How do you modify a specific user's access (grant access or remove access) to Product Families, Supported Product Families, and Data Table folders?

- A.** Click the user's name on the User Administration List page to edit the user, click the Access Permission tab, select or deselect the check boxes related to the items you want to grant access to or remove access from for this user.
- B.** For each Product Family or Data table folder affected, click the Modify tab for that item and then select or deselect the check boxes related to the users you want to grant access to or remove access from for this Product Family or Data Table folder.
- C.** Click the Group name on the Group Administration List page that has this user as a member, click the Access Permissions tab, select or deselect the check boxes related to the items you want to grant access to or remove access from for this user.
- D.** Go to the Product Family definition or the Data Table folder properties for which you want to grant or remove access, click the Access Permissions tab, select or deselect the check boxes related to the users you want to grant access to or remove access from for this Product Family or Data Table folder.
- E.** Use the Navigation Menus item on the Administration home page to grant or remove access to specific Product Families or Data Table folders for the user.

**Answer:** C

**NO.4** When configuration a product, which pricing is applied last on a given item (part) after it is added to a valid configuration?

- A. List price from the PriceBook
- B. Base Price from the parts database
- C. Attribute value pricing
- D. Recommend Item Pricing

**Answer:** D

**NO.5** In order to obtain additional sets of records when performing a REST call, which of the following sample URLs would a user use to obtain an additional 1000 records?

**A.**

<https://testsite.bigmachines.com/rest/v1/commerceDocumentsExampleTransactions?totalResults=1000>

**B.** <https://testsite.bigmachines.com/rest/v1/commerceDocumentsExampleTransactions?limit=1000>

**C.**

<https://testsite.bigmachines.com/rest/v1/commerceDocumentsExampleTransactions?offset=1000>

**D.** <https://testsite.bigmachines.com/rest/v1/commerceDocumentsExampleTransactions?set=1000>

**Answer:** B

**NO.6** A Commerce Constraint rule has been used to show only the applicable currencies in the Currency attribute based on the value selected in the Country attribute.

After selecting the value in the Country attribute, what should be performed to run the specified Constraint rule?

- A. The Save action must be performed.
- B. The Submit action must be performed.
- C. No additional action is needed.
- D. Any action will trigger the Constraint rule.

**Answer:** C

**NO.7** Identify two supported procedures for moving commerce library functions between environments without overwriting other functions. (Choose two.)

- A. Webservices
- B. Full commerce migration
- C. Granular migration
- D. Migration packages
- E. Bulk download/upload

**Answer:** C,D

**NO.8** Along with Part Number, Quantity, and Price, you also want to send additional recommended item details from Configuration to Commerce by using a Recommended Item rule.

Which two options enable you to achieve this? (Choose two.)

- A. Concatenate the additional details to Part Number.
- B. This is not feasible. Only Part Number, Quantity, and Price can be passed from Config to Commerce by using Recommended Item rules.
- C. Pass the additional details by storing them in a Price Book.

**D.** Use the Comment field to pass additional details.

**E.** Use BOM Mapping rules.

**Answer:** D,E
